Project Title	Contractor Connect	
Project Description	<p><u>About the company:</u></p> <p>The Four Group is an IT company that connects users with talented local contractors and professionals for their desired tasks. Our mission is to solve the challenge that people face when trying to find qualified experts for their projects, ensuring that every task is completed efficiently, on time, and within budget.</p> <p>Our group members are highly qualified in the IT department and have experience in designing and developing websites. In addition, one of our group members has previous experience of working with contractors and understands how the process works, including how to plan and manage a budget efficiently.</p> <p><u>About the project:</u></p> <p>An online marketplace to connect customers with local contractors to get an accurate estimate for their project and find suitable contracture for a specific job.</p> <p>“Contractor Connect” is a software website designed to create a direct channel between contractors, skilled labor workers, and clients. It helps workers gain steady access to projects while enabling customers to avoid the hassle of shopping around for prices. By simplifying and automating the estimating process, Contractor Connect ensures timely, accurate, and transparent project quotes.</p>	
Problem/ Opportunity Assessment *	<p><i>Please describe current state problem/opportunity that describes the nature and extent of the problem (factual, quantified, concise), or that outlines a chance for advancement or progress.</i></p>	
	1.Unemployment	Unemployment affects many skilled labor workers and contractors who struggle to find steady work despite having the necessary skills.

	2. Project Estimation Issues 3. Odd jobs require unique solutions.	For the people who have little or zero knowledge about renovation or contract work, figuring out the cost of materials can be a very time-consuming task. There are many small tasks, such as fixing broken stairs or building a backyard shade. Despite the availability of written and video tutorials, these types of jobs still require unique skills.
Desired Project Outcomes/ Requirements*	<i>Define how this project shall address a business need, e.g. the business problem or opportunity described above; describe what the beneficiary must be able to do / receive from the solution</i>	
	1. Providing jobs for local contractors.	The main goal of our website is to provide employment opportunities for local contractors.
	2. solve Project Estimation Issues	The website serves as a quick and simple way to get an estimate for a project. Customers spend hours meeting with contractors one at a time to discuss the project details. With contractors connect they will spend few minutes putting the details of their project and get hundreds of estimates from contractors that serve their location
	3. provide skilled workers according to jobs Requirement	There are many small tasks required skilled workers. Our website solves this problem by connecting users with suitable contractors based on the specific requirements of each job.
	4. trustworthy contractor	Our website provides complete information about each contractor, including their past work and professional background. This helps users easily find reliable and skilled contractors for their projects.
Key Deliverables to be produced by students*	<i>Define the boundaries of work that you expect to receive from the students effort (vs. internal effort)</i>	
	1.	User friendly project bidding functionality
	2.	An admin dashboard to manage the website.
	3.	User/Contractor dashboard to manage accounts and projects (USER ROLE)
	4.	Hosted/live webpage
Desired Start Date	January 7, 2026	
Desired End Date	April 14, 2026
